

GBS Insurance & Financial Services, Inc.

Introduction - Life Settlement Brokerage Division

GBS

GBS began as Life Plans Unlimited and has been serving the North Eastern brokerage community since 1969. Since its inception, GBS has become known for providing creative insurance products, underwriting expertise, marketing support and education to our agents. Professionalism and ethics have always been our watchwords, and they have served us well.

GBS over the years has developed a staff of over 20 dedicated Individuals who are trained and ready to provide such services as in-house underwriting, advanced sales support, Long Term Care Sales Support, Premium Finance for life insurance and Life Settlements.

In March of 2002 Life Plans Unlimited was acquired by GBS Insurance & Financial Services Inc., a division of Arthur J. Gallagher, which is a publicly traded company.

GBS - Life Settlement Brokerage Division

GBS has offered life settlement services to their clients since 2005. In January of 2008, Jay Robbins joined the company as Director of Life Settlements, to manage and run the Life Settlement Brokerage division.

As a boutique life settlement brokerage we offer customized and special attention to each individual case. With years of experience in the life settlement market we have strong business relationships with all major institutional buyers.

Operating as an open-model life settlement brokerage, we represent the seller and shop cases to every applicable buyer in the market using our experience to negotiate for the highest offers in the shortest amount of time. Owned by a public company, we conform to the highest level of compliance, privacy laws and standards and provide Errors and Omissions coverage. We believe in full transparency with our clients and will disclose all bids and fees in regards to your case.

With over 30 years in the life insurance business we have strong relationships with all major life carriers. These relationships are vital when it comes to obtaining policy information and policy verifications from carriers, which are needed to both successfully shop Life Settlement cases and to successfully close Life Settlement transactions in a timely manner.

Our life settlement brokerage division was originally created to service the needs of our 2,000+ agents located across the country who already enjoy working with us to help provide suitable products for their clients whether it be life insurance, long term care or annuity business. We are extremely competitive regarding the fees we charge for transacting life settlement brokerage business, especially in relation to other life settlement brokers in the market who depend solely on commissions earned on each life settlement case.

Call anytime to speak with a life settlement expert. We are happy to provide life settlement marketing material, answer any questions you may have or discuss potential life settlement cases.
